"Heartburn", sourstomach, belchings of gas and acrid, bitter fluid—all are indications of indigestion. And indigestion is pretty sure to be dyspepsis—til neglected. Then dyspepsis—to very dangerous diseases. There are so many things which bring on indigestion—such as rich, greasy foods, eating without properly chewing the food, overloading one stomach, eating when exhausted, going to bed too soon after eating, etc. Most any of these will bring on indigestion—and then Kodol is required to restore the stomach to good?
